## GUINEA

Hunt for Dwarf Forest Buffalo, Zebra Duiker, Giant Forest Hog, Warthog, Bush Pig, Leopard (not exportable), Dwarf Hippo, Oriibi, Various Species of Duiker and other Rare Tropical Forest Animals.

Guinea is new hunting destination, not much is known and not much has been explored by international hunters. The geographic position is between Guinea Bissau, Senegal, Mali, Ivory Coast, Liberia and Sierra Leone. This makes it very interesting for tropical forest hunts, but also for hunts in the arid areas in the north of the country, bordering with Senegal and Mali. The camp in the Forest concession is 618 square miles and has been opened for the first time in recent history. It is on the border with Sierra Leone, about 300km as the crow flies from the capital Conakry. The area is hardly accessible and it can be reached after a 4 hour drive on "tarmac" road and another 5 on African dirt road!

Zebra Duiker (Cephalophus zebra) CITES II

Season	Length of Hunt	2x1 Hunt	1x1 Hunt	Observer	Plus Trophy Fees	Weather
December-May	8 days	\$8,400.00	\$9,800.00	\$2,750.00	Yes	<a href="#">Click for Weather</a>

The area has a high density of red buffalo and the hunt is by stalking and waiting, in the daytime, but mainly by late afternoon. There are 4 fixed blinds in strategic locations close to water and salt, for waiting buffalo herds and leopards in the night. Pigs are hunted by waiting under wild fruit trees and it is a hunt that gives excellent results. There are very few roads in the area where one can hunt stalking or using the car and good physical fitness is required for hunting on foot! In the middle of the hunting area you will find a fixed camp with 2 rooms, a dining room and bathrooms for the hunters and a separate staff camp. Cuisine is French and local.

The day of arrival, if the flight reached Conakry in the early morning hours, one can proceed directly to Sabouya. The hunt consists of 8 hunting days and 9 nights stay, while on the 10th day, hunters return to Conakry. Our partner and professional hunter, who speaks English, Spanish and French, will be at your service during your stay.

At the end of December, roads will be opened up towards the marsh area. Based on local information, there should be Bongo, Forest Sitatunga, other Duiker species, and possibly Sing-Sing Waterbuck.

**Included:** Assistance upon arrival at Conakry airport (flights from Paris or Casablanca), transfer to the hotel, hunting organization with a professional hunter, trackers, first trophy treatment and use of the car during the hunt, lodging and full board and laundry service.
