HUNT WHITE RHINO, BUFFALO, ELEPHANT, BUSHBUCK, WHITE BLESBUCK IN SOUTH AFRICA

Winter months in South Africa are June, July & August and both May & September can also be cold. Generally you can expect cold mornings with the occasional frost, warming towards midday with cold nights. The higher altitudes of the Eastern Cape hunting areas do get snow, so come prepared. The summer months can experience temperatures of up to 100°F at midday. A few of our South African areas are Malaria areas. Please consult your Doctor when and if Malaria Prophylaxis is needed.

The largest variety of huntable species in the world makes this a great bow hunting destination. Most of the hunting takes place on private reserves out of blinds over waterholes. South Africa offers all the comforts with modern lodges and is an excellent choice for a group or family safari.
